

ELECTRO ZONE CONTROLLERS

BOILER STAGING INTERLOCK SERIES - Input dial switch with control logic for direct element staging.

TS Boiler Series 4-Zone Controller

- EB-ZTS-1 Zone valves only (4-wire, 3-wire, 2-wire, or actuators) priority with dual temperature feature. Maximum of 4 zones.
- EB-ZTA-1 Configured for zone pumps, zone valves (4-wire, 3-wire, 2-wire, or actuators) TACO self-contained pumps, etc. Eight documented configurations. Priority with dual temperature feature selections. Maximum of 4 zones.
- EB-ZEA-1 Same as ZTA for EB-M* and EB-C* Series larger boiler, has enclosure and a second 40VA transformer. Maximum of 4 zones.
- EB-ZES-1 Same as ZTS for EB-M* and EB-C* Series larger boiler, has enclosure and a second 40VA transformer. Maximum of 4 zones.

Add 4 Additional Zones

- EB-ZTS-2 Use with EB-ZTS-1, extends all features to 8 zones, priority and dual heat still relate to zone 1.
- EB-ZEA-2 Use with EB-ZTA-1 or EB-ZEA-1, extends all features to 8 zones, priority and dual heat still relate to zone 1.

TS Boiler Series 8-Zone Controller

- EB-ZEA8 8-zone controller, pumps or valves, Dual Temp, priority with enclosure and a 40VA transformer.
- EB-ZES8 8-zone controller, 24V, valves only, Dual Temp, priority with enclosure, no transformer.
