

CASH REBATES!

Electro's Refresh Program

Electro Industries' boilers and plenum heaters have been heating homes in the heartland and from coast to coast since 1974. If you have an Electro-Mate or Electro-Boiler in your home now, you know first-hand the comfort, reliability, and cost savings that comes with owning American-made Electro Industries equipment.

We are offering you cash to upgrade, so now is the perfect time to modernize your equipment. Replace your existing boiler or plenum heater with a new Electro model and we will send you, the homeowner, a cash rebate. Not only will you upgrade to the latest in electric heating technology, but you will give your heating system a refresh, providing comfort and peace of mind for many more heating seasons.

OR, you may want to follow the wave of the future by upgrading to heat pump technology. By replacing your current boiler with a **200% efficient** NorAire Heat Pump Boiler you will start saving money on your heating bills the first time you turn it on!

Your local power company may also have rebate offers available on Electro products; contact them for more information. Contact Electro at sales@electromn.com or 800.922.4138 for help selecting the correct upgrade model.
