

*A compact electric boiler, the Electro*

# Industrial Boiler

*100% efficient*

*Built-in digital temperature control with outdoor reset capability*

*Multi-boiler staging control*

*Compact design*

 **Made in USA**

*Electro Industries' Industrial Boiler is a very compact and effective solution to retrofitting old, inefficient fossil fuel boilers, or for use in new installations. With a 30" wide/56" high profile, the Electro Industrial Boiler will fit through most service doors and requires less floor space. This eliminates costly upgrades to mechanical room space.*

*Digital temperature control provides automatic turn down as loads decrease.*

*Circuit breakers for each element provide a safe and easy way to disconnect individual elements.*

## SPECIFICATIONS

- Specification builder available at [www.arcad.com](http://www.arcad.com)

## OPTIONS

- Bender fault monitor
- T775R controller
- 125 psi vessel
- BACnet or LonWorks interface

## ELECTRICAL

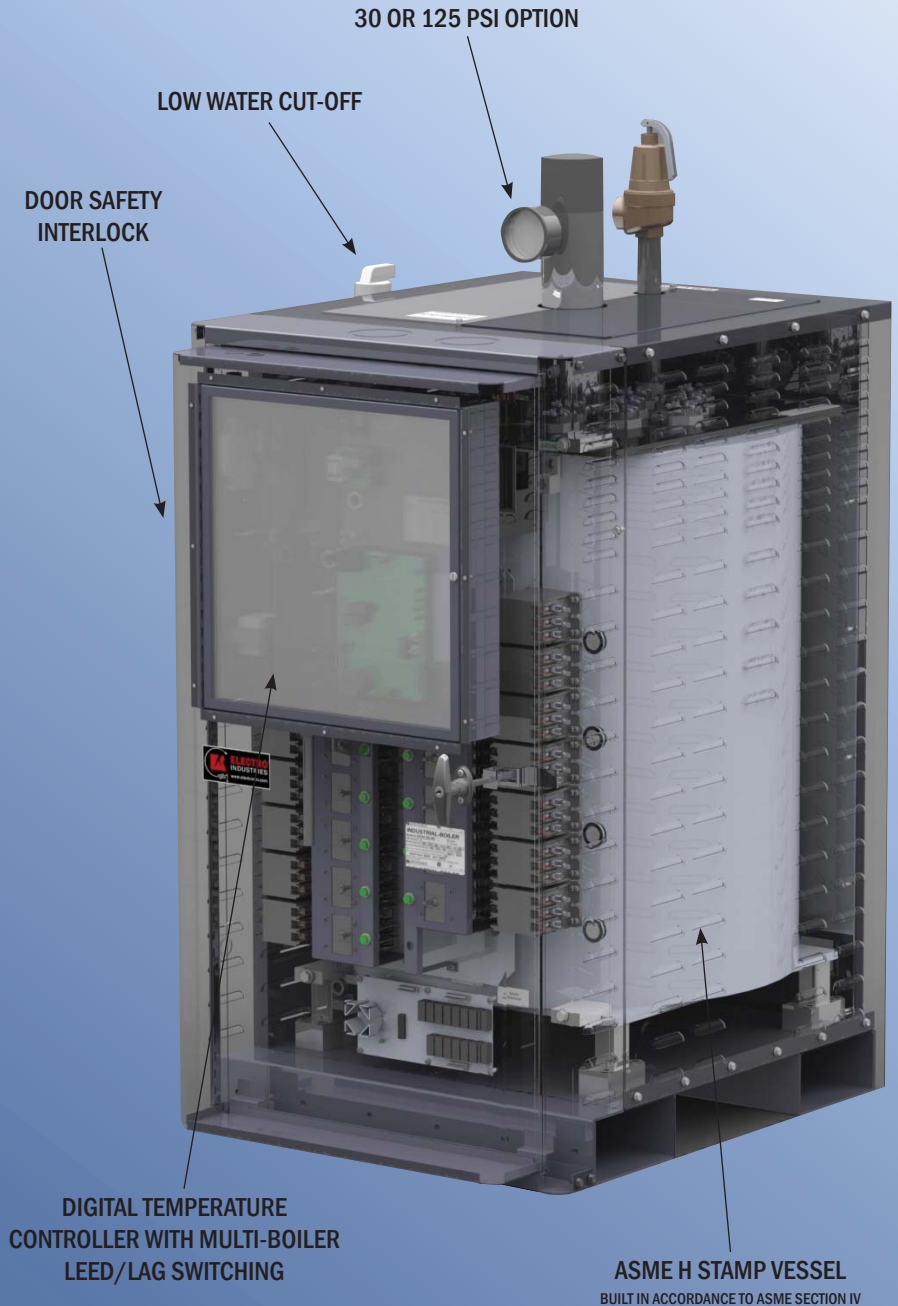

- 240, 208, 480, 600-volt 3-phase
- 120-volt control circuit
- Primary pump relay
- Utility load control provisions

## STANDARD EQUIPMENT

- Digital control for setup and monitoring
- Digital set point or outdoor reset temperature control
- Circuit breaker disconnect for each element
- Lead/lag control for multi-boiler application
- Low water cut off
- Manual hi-limit control

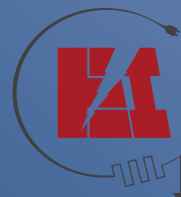

## DIMENSIONS

- 30" wide x 56" high x 38" deep
- Shipping weight 750 lbs.
