

## CAPABILITIES

Electro Industries' Monticello manufacturing facility is well equipped to handle most metal projects from start to finish. We can start with concept drawings and complete your project all the way through metal finishing and packaging.

## COMMITMENT

Commitment is something that can be difficult to find in today's world. At Electro Industries we have a different way of thinking. Our commitment to our customers runs deep, with a customer service department that truly cares about your project. Our commitment to the quality and on-time delivery of your products is something we know you will appreciate.

## CRAFTSMANSHIP

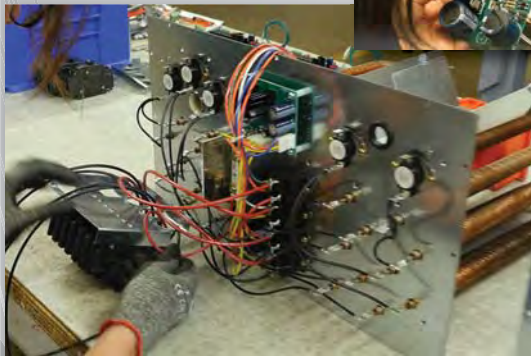

Our talented employees are experts at combining old world know-how with new world technologies. This unique combination ensures a high quality end product at pricing that won't break the bank.
